

CALL FOR PAPERS

18th Annual Conference of the Society for the Study of Occupation: USA

October 3 – 5, 2019, Scottsdale, Arizona
Doubletree Resort Paradise Valley

THE DARKER SIDE OF OCCUPATIONS: ILLEGAL, TABOO, RISKY

Ruth Zemke Lecture in Occupational Science

Research society format – Diverse peer-reviewed papers
with dialogue

Explore research into the shadow side of occupations

Network with top occupational scientists

Be inspired by the rugged landscapes and vibrant cultures
of the American Southwest

Visit The Heard Museum of Native American Art,
Montezuma Castle National Monument, Sedona

Abstracts now being accepted through 2/4/2019:

Details and submission link at www.sso-usa.org/2019-conference

Hosted by A. T. Still University of Health Sciences

2019 CALL FOR PAPERS

**18th Annual Research Conference of the Society for the Study of Occupation: USA
(SSO:USA)**

Conference Theme -

The Darker Side of Occupations: Illegal, Taboo, Risky

October 3-5, 2019

Doubletree Resort Paradise Valley

Scottsdale, Arizona

Deadline for Papers: February 4, 2019

Mission: The SSO:USA is a research society that strives to build the body of knowledge in occupational science to benefit humanity. The Society invites abstracts of in-progress or completed research, theory, or current issues in the study of occupation, or the activities that occupy our lives. Contributions from all sciences and professions are welcome. Format of the conference emphasizes discussion and networking to enhance research. <http://www.sso-usa.org/>

ABSTRACT SUBMISSIONS

We encourage all papers addressing substantive and methodological issues studying participation in daily activities or those activities that “occupy” our lives. Contributions from social and other sciences are welcomed. Topics related to this year’s theme on “darker occupations” will be given extra points.

Submit abstracts through this website:

<https://www.abstractscorecard.com/cfp/submit/login.asp?EventKey=UPJWTAPF>

Abstracts must be submitted electronically by 11:59 PM PST on Monday February 4, 2019. Late abstracts will not be accepted. The primary author on each abstract will receive notification via email regarding the status of his/her submission by late March 2019.

The corresponding author must provide his or her own, as well as all contributing author(s)’, names, credentials, and affiliations. Abstracts submitted without this information will not be published in the Proceedings for this Research Conference. Additionally, the corresponding author must provide an email that can be used for future communication.

Abstracts should be **400 words or less**, not including a maximum of five key references, three key words, and the author’s questions/objectives for the discussion period. Abstracts must be submitted in APA format. Equal time is provided for presentation and discussion at this research conference. Questions/objectives should facilitate discussion on how the presentation content furthers knowledge of occupational science concepts.

The primary author must identify the type of submission (research paper, theoretical paper, panel, forum, research poster, or student poster), a title, contributing author(s) names, credentials, and affiliations in the appropriate boxes on the submission webpage. Additional points will be given for relevance to conference theme. If authors are limited to particular presentation dates or times because of institutional or religious

limitations, they must indicate their presentation availability in their submission notes. Abstracts will be submitted to a blinded review process (see criteria below). Reviewers will be members of the SSO:USA.

FORMATS

Session Type	Session Format	Headings
RESEARCH PAPERS	15 minutes presentation + 15 minutes discussion	<ul style="list-style-type: none"> Title Statement of purpose Description of methods (participants, data collection, analysis) Report of results Implications related to occupational science Discussion questions to further occupational science concepts and ideas
THEORETICAL PAPERS	15 minutes presentation + 15 minutes discussion	<ul style="list-style-type: none"> Title Intent Argument Implications related to occupational science Conclusion Discussion questions to further occupational science concepts and ideas
PANEL SESSIONS	<p>60-minute panel sessions should include 2-3 brief papers on a shared topic and 20 minutes of discussion among panel members and audience.</p> <p>NOTE: Submission made by the session organizer.</p>	<ul style="list-style-type: none"> Title Topic Purpose/aims Methods Result or intent Implications related to occupational science Discussion questions to further occupational science concepts and ideas
FORUM SESSIONS	An individual or a team may lead a 60-minute forum on research, pedagogy or another topic. The forum should include a 15-minute evocative presentation leading to a 45-minute dynamic exchange of ideas among participants.	<ul style="list-style-type: none"> Title Aims/intent Rationale Potential outcomes for participants Discussion questions to further occupational science concepts and ideas
RESEARCH POSTERS AND STUDENT POSTERS	Appropriate for in-process studies, case-studies, or completed research. Presenters should be available to describe their study and answer questions during the 1-2 hour poster session.	<ul style="list-style-type: none"> Title Statement of purpose Description of methods (participants, data collection, analysis) Report of results if any Discussion/implications as related to occupational science

CRITERIA FOR ABSTRACT REVIEW

Three blind peer reviewers will rank each abstract on the criteria listed below. Each abstract will be ranked from completely unresponsive to excellent response for criteria. For those papers responding to the conference theme, an additional criterion has been added titled Relevance to Conference Theme. Scores are weighted according to the following table, and definitions of criteria can be found below.

Criteria Weight:	Research Paper and Poster	Theoretical Paper	Panel	Forum
Rigor/Trustworthiness ^{a, b}	5	5	3	n/a
Coherence ^{c, d}	3	3	3	n/a
Importance to OS ^e	3	3	5	n/a
Relevance to Conference Theme ^f	3	3	3	3
Discussion Potential ^g	n/a	n/a	n/a	5
Originality ^h	n/a	n/a	n/a	3

Definitions of Criteria:

- Rigor/Trustworthiness (for Research Papers, Posters, and Panels): Degree to which methods described in abstract are of high quality.
- Rigor/Trustworthiness (for Theoretical Papers): Degree to which concepts and theories described in the submission are of high quality and well thought out.
- Coherence (for Research Papers and Posters): Degree to which abstract clearly describes study purpose, methods, and results.
- Coherence (for Theoretical Papers and Panels): Degree to which abstract clearly describes the intent, argument, and conclusions of the paper or panel.
- Importance to Occupational Science: Degree to which proposed presentation contributes to the study of occupation and to the mission of the SSO:USA.
- Relevance to conference theme: Degree to which abstract clearly relates to conference theme.
- Discussion Potential: Degree to which proposed forum is likely to evoke active discussion productive of new insights in relation to occupational science.
- Originality: Degree to which proposed forum offers new perspectives on topics in occupational science and contributes to the mission of the SSO:USA.

CONFERENCE HIGHLIGHTS

Conference Theme - The Darker Side of Occupations: Illegal, Taboo, Risky

Occupations can be fraught with danger and perhaps cause harm to self or others. They can be prohibited, unmentionable, addictive, and on the fringes of society. Expand your holistic understanding of occupation by exploring this year's conference theme.

2019 Ruth Zemke Lecture in Occupational Science by Dr. Charlotte Royeen entitled:

Meta-emotion of Occupation: Feeling and Feeling while Doing

2019 Proceedings: Abstracts of presentations will be published in the 2019 SSO:USA Proceedings.

Theme Speaker: The search is underway for a speaker providing a unique perspective on this year's theme, The Darker Side of Occupations: Illegal, Taboo, Risky. The intent of a conference theme is to facilitate a strategic focus within occupational science discourse. Theme speaker's name and lecture title coming soon!

Student Poster Session: The SSO:USA welcomes submission of poster abstracts from students of any educational level. Student posters will be scored in a separate review, thus student abstracts submitted will compete for acceptance only against abstracts submitted by other students.

Occupational Balance: One of the unique features of SSO:USA conferences is the attention devoted to balance and the quality of participants' experiences. Researchers should leave an SSO:USA conference refreshed, stimulated, and energized to return to their work. Shared meals, conference break blocks, and a range of balance activities encourage attendees to rejuvenate, network, and explore unique aspects of local culture. The Scottsdale area is renowned for its hiking trails such as Camelback and South Mountain with a panoramic view of the valley, Heard Museum that hosts the cultural artifacts of 22 Native American tribes, Desert Botanical Gardens with 50 acres of unusual desert plants, golf courses, Sedona, and of course the Grand Canyon.
